What are Options?

Managing Your Risk

Options trading can be a risky endeavor. It's important to manage your risk carefully when trading options. Here are a few tips for managing your risk:

- **Start small.** When you're first starting out, it's important to start small. Only trade with a small amount of money that you can afford to lose.
- **Use stop-loss orders.** Stop-loss orders can help you to limit your losses. A stop-loss order is an order to sell an option if it falls below a certain price.
- **Diversify your portfolio.** Diversifying your portfolio is one of the best ways to reduce your risk. Don't put all of your eggs in one basket. Instead, trade a variety of different options.
